

## **City of New York Resident comment.**

I am, Ras OMeil NOVado MORgan, writing comment on report assessing in-depth the efficacy, fairness, and integrity of the City's policies, practices, and procedures with respect to disciplining police officers engaging in misconduct during stops.

I know only that the City of New York will be 400 years old in 2025. I know that Human Rights are being violated by City of New York Department of Police during stops and arrests. After being kidnapped by City's agents, I won by pro Se against criminal charges that were made against me.
